Sub:- Menace of drugs in schools & colleges.

Sir,

I am writing this letter to your good self to express my deep concern & anguish over the menace of drugs in schools, colleges and streets. This problem is getting out of control in the cities, towns, and villages near the border areas. The neighboring states always conspiring to destabilize our progress, so they target our youth. Free drugs are being provided to the youth as well as students in colleges and schools.

Drugs destroy the life of those who fall prey to its addiction. Once they fall in the trap of addiction, it is very difficult to return to normal life. Their unfortunate drug addicts life is bound for perdition. Drugs affect their health adversely. They become vulnerable to any health complications such as damage to the liver & pancreas, ulcers, diabetes, heart problems, lung damage, kidney failure etc.

Through the medium of your concern I appeal to the Government and the other concerned authorities to look into the matter and take very strict actions against this menace.

The parents must also be very vigilant about their children's suspicious activities. I hope you will take an appropriate action against it.

Thanking you.

Nisha Katoch
